

Nuvi 750 Instructions

Creating a Route

Use MapSource with “City Navigator North America NT 2009” mapping software.

Create a route:

Open MapSource.

Select “City Navigator North America NT 2009”

Select [Route](tool)

Position and Zoom to enable convenient viewing of the map.

Select the starting point on the map.

Select successive points along the desired route.

When the last (ending) point is selected, move the cursor away from last point and Right click then select [Cancel] to finish the route.

Select [Routes](data tab)

Highlight & R-Clk. The new route. [Route Properties]

[] (uncheck) “Autoname” Enter desired name for the route in the “Name” box. [ok]

Transferring a Route to Nuvi: (Note: Can be done running the Nuvi with a fully charged battery.)

Connect the Nuvi to the computer. (With MapSource open.)

[Send to Device](icon) finds [Nuvi 750 Unit ID 3410480450]

Select [√] Waypoints

[√] Routes

Etc.

[Send] When done → [ok]

Disconnect the Nuvi from the computer. Use [Safe to remove hardware](icon) Nuvi turns OFF

Turn the Nuvi back on and wait for it to load maps.

[Tools](icon) Scroll to and select [My Data](icon)

Scroll to and select [Import Route from file]

Select the desired Route. (Puts a [√] in it's box.)

[Import]

After successfully importing route... [ok]

Deleting a Route from the Nuvi:

Turn Nuvi on.

[Tools](icon)

Scroll to [My Data](icon)

Select [Delete Route(s)]

Select the desired Route. (Puts a [√] in it's box.)

[Delete] [Yes]

Finding Place, Store, Lodging, etc. in a Distant Town / City:

Method-1 [Where To] [Near] (at bottom of screen) (●) “A different City” [ok]

Enter name of city. [Name] [Done] Select from list. (Goes back to “Where To” icons.)

[Points of Interest] [Spell Name] Spell the name of place. [Done]

Select from list. [Go] [Show on Map] [Save]

Method-2 **Display the map and Pan / Zoom to the distant town / city. Put cursor on the Town or City.** [Go]

[Menu] [Where To] [Points of Interest] Select as desired. Ex: → [Shopping]

Scroll to .. as desired. Ex: → [Grocery]

[Spell] Type in the name of place. Ex: Hannaford]

[Done]

Find the desired place on the given list. Select .. Ex: [Hannaford Mast Rd. etc.] (Gives Name, Address, Tel. # etc.)

Select one... [Go] [Show on Map] [Save]

Nuvi 750 Instructions

Using the Nuvi750 on the GL1800 Gold Wing.

Mount the Nuvi and connect cables. Bikes ignition switch to “Accessory” position. Wait for Nuvi to power up.

Choose one of the following modes of operation.

Gold Wing Radio Settings

Aux Mode: (Nuvi audio plays through the bikes “Aux” mode.)

[Audio] = ON (Speaker position) On the GW radio.. Push [AUX] → Shows “Aux” on readout.

FM Mode: (Nuvi audio plays through the bikes FM mode.)

[Audio] = ON (Speaker position)

On the GW radio.. Push [FM 1] → Displays FM frequency

On the GW radio.. Push one of the “Preset” buttons [1] → Displays FM frequency **88.1**

[2] → Displays FM frequency **88.9**

[1] → Displays FM frequency **90.3**

Note: Frequency’s may be set to any “Unused” frequency as required.

Nuvi Settings

On the Nuvi Main screen [Vol] [FM Trans] Set frequency to match one of the above frequencies.
Check [√] “Enable FM Transmitter “

Nuvi will say “ Ready to navigate. “

Push [Back] to return to the main menu screen.

Setting Volume (from Main Menu)

If FM Enabled: [Volume] { Enable FM Transmitter & Set frequency }

If FM NOT Enabled: [Volume] { Master Volume Control, Mute, FM Transmitter. }

Setting Volume (Alt. Method)

If FM Enabled: [Tools] [Settings] [Volume] FM Frequency
Navigation Volume & Mute
Media Volume (NO Mute)
[FM Transmitter]

If FM NOT Enabled: [Tools] [Settings] [Volume] Master Volume & Mute
Navigation Volume & Mute
Media Volume (NO Mute)
[FM Transmitter]

Navigating to a destination

To cancel a route: [Menu] [Stop]

Navigating to a “Favorites” location: (Waypoint)

[Where To] [Favorites] Select a destination. [Go] → Nuvi will say “ Please drive the highlighted route “
(May take a few seconds!)

Navigating to an “Address” location:

[Where To] [Address]
{ **Spell City** } Type in the City Name. ~~ Select from list as required. [Done]
{ **Enter House Number** } Type in the House number. [Done]
{ **Enter Street** } Type in the Street name. ~~ Select from list as required. [GO]
